

# **ISLAND DAO**

## PERKS COLLECTION

WHITE PAPER

v1.0

# INTRODUCTION

A network state is a highly aligned online community with a capacity for collective action that crowdfunds territory around the world and eventually gains diplomatic recognition from pre-existing states.

IslandDAO is a community aligned with trying out and testing new technologies. We independently enjoy giving our feedback to new startups; together, we have been able to monetize this passion and collectively earn over \$500,000 during the 2 years of operations.

We take pride in being one of the few (perhaps only) Network States with decentralized functions that should be core to the Network State ethos.

If you leave this paper with anything, we want it to be a highly tuned understanding of the minimum expectations for a Network State. Without the below, you cannot truly have a Network State, because without the reliance on borders and physical location to bind people, it must be their decentralized and open processes that keep everyone safe and secure in the promise to pursue a unified ideal.

The minimum requirements we hold for a Network State:

- Transparent voting processes: [Realms DAO](#)
- Transparent and decentralized treasury management: [Treasuries](#)
- Revenues from services: [Services](#)

As one of the only Network States that have accomplished the above, we are now ready to pursue the easier part of the plan: to expand our physical presence through crowdfunding. Naturally, as a community that thrives on innovation and testing out new technologies, we have created a new form of NFT membership for this crowdfunding, one that not only showcases the many new functionalities of Metaplex Core, but also one that focuses on the benefits holders can have in physical locations.

This is our first crowdfunding to see our Network State take form in the physical world.

# PROJECT OVERVIEW

IslandDAO PERKS Collection is a unique initiative designed to enhance participation, governance, and engagement within the IslandDAO community. The Collection is built with the latest NFT Standards provided by Metaplex Core.

Consisting of 3336 unique pixel art NFTs representing 12 distinctive animals, including exclusive 1/1 editions. This collection offers extensive utility, governance power, and real-world PERKS to holders.

DAO events, such as IslandDAO and AthensDAO, as well as general Solana community events, exemplify how on-chain benefits can seamlessly cross into tangible real-world experiences.

## MISSION STATEMENT

IslandDAO PERKS is more than just an NFT—it's your access pass to digital perks, real-world fun, and meaningful participation in decentralized governance. We're redefining NFT utility by combining Solana-powered community engagement with exclusive, real-life experiences. At the core of our long-term vision is to buy an Island and run a Solana hackerhouse all year around. It will be a vibrant hub for builders, creators, and community members to live, collaborate, and shape the future of decentralized innovation. Join us to engage, contribute, and help bring this vision to life—where digital ownership meets real-world impact.

# PROJECT DETAILS

IslandDAO PERKS Collection is built to be "unruggable." All funds are managed by the community, a well-established and transparent organization with a strong history in the Solana ecosystem. There are no team allocations or OTC deals—every transaction and decision is governed by the community, ensuring a truly decentralized and fair system that can be verified on-chain.

Holders of the collection receive valuable on-chain perks, including governance multipliers, whitelist eligibility on future initiatives, and increased influence within the DAO. These features enhance engagement, giving members real power in shaping the future of the ecosystem.

Beyond on-chain benefits, the collection extends into real-world experiences. Holders get exclusive access to premium events such as IslandDAO and AthensDAO, along with merchandise, VIP perks at major Solana gatherings, and personalized experiences at DAO-hosted meetups. These perks bridge the gap between digital ownership and tangible rewards, making participation even more meaningful.

# ARTWORK

12 Animals, 3336 Unique Pixel Art NFTs

# DAO INTEGRATION

IslandDAO PERKS Collection is intricately connected with the the community of IslandDAO, a fully on-chain decentralized autonomous organization renowned for its transparent governance structure and distributed authority. Governance within the DAO is robustly decentralized among Solana power users and respected community figures, fostering an environment of fairness, transparency, and accountability. All funds from the IslandDAO PERKS Collection will be managed collectively by the DAO's governance mechanisms, ensuring community-driven decision-making processes that are transparent, democratic, and accountable.

- On-chain Governance: [IslandDAO Realms](#)

## NFT UTILITY AND PERKS

NFT holders will be invited to attend IslandDAO main events and general Solana side events worldwide.

All Perks-on-Chain NFT holders gain exclusive access to the IslandDAO Governance Leaderboard, unlocking additional and personalized perks. Holding a Perks NFT is the sole pathway to these special benefits—truly PERKS on PERKS!

Governance Leaderboard: TBA

## DRAGON Eligibility for Merch Bags

Dragon NFT holders qualify to apply for a limited number of official merch bags. Bags are allocated on a first-come, first-served basis, priced in \$USDC with worldwide shipping available.

## GOAT Special Bracelet at Island DAO Events

Holders receive an exclusive event bracelet featuring their name, a QR code linked to their socials, and additional personalized details.

## Horse Perks leaderboard Boost

Horse NFT holders enjoy a 1% boost to their base Perks Leaderboard score, with stackable percentages for multiple holdings.

## INU Priority Airdrops & Whitelist Access

INU holders receive priority consideration for airdrops and whitelists from Island DAO partner projects and communities.

## Monkey Featured Extra in Event Videos

Monkey holders are prominently featured as extras in video content produced during real-life events sponsored or organized by Island DAO.

## Mouse Cardboard Cutout Eligibility at Events

Mouse NFT holders can apply for limited spots for life-sized or tabletop cardboard cutouts to be displayed at Island DAO events. A nominal fee in \$USDC is required to cover production costs.

## Ox DAO Governance Multiplier

Ox holders gain a 1% multiplier boost to their governance token voting power, with stackable benefits for holding multiple NFTs. This multiplier does not impact the perks leaderboard.

## Pig Plus One at Island DAO Events

Pig NFT holders receive the privilege of bringing a plus one guest to Island DAO events.

## Rabbit Complimentary Coffee & Early dApp Access

Rabbit NFT holders enjoy complimentary premium coffee at IRL events and exclusive early access to premium features within Island DAO dApps.

## Rooster Private Q&A with Core Contributors

Rooster holders gain access to private, recurring Q&A sessions with Island DAO's core contributors, providing direct engagement opportunities.

## Snake Island DAO Service Discounts

Snake NFT holders benefit from a 0.2% flat discount on all DAO products and services, with stackable discounts for multiple holdings.

## Tiger Special Event Shoutouts

Tiger NFT holders receive special recognition and shoutouts during Island DAO events. Community Consensus can modify perks to the benefit of the holder. Allowing for the gradual evolution of each perk according to each event, service or promotion.

# PAST EVENTS & PROOF OF PERKS

The IslandDAO community has a proven record of successfully delivering real-world experiences to its community. During IslandDAO v2 in Koh Samui, Thailand, the DAO provided a select group of members with exclusive perks, including free flights and accommodation in a dedicated IslandDAO villa. Additionally, we hosted dinners, BBQs, and open bar parties for our citizens and Gen 1 NFT Holders.

This event demonstrated the DAO's commitment to rewarding community engagement with tangible, high-value experiences, creating memorable moments through exclusive networking events, workshops, and social gatherings. We want to bring this to a wider audience.

## MINT SCHEDULE

IslandDAO PERKS Collection will follow a three-stage mint. Each stage will celebrate an IslandDAO milestone.

A structured mint schedule aligns IslandDAO PERKS Collection with key milestones in IslandDAO's evolution, ensuring a progressive and community-driven distribution. 

There will be only one whitelist window during the all mint stages. 24 hours before the start of Stage One.

## 25TH APRIL 2025 - STAGE ONE: SOLANA CROSSROADS / DAO REBRANDING EVENT

Total Supply: 1,114 NFTs

WL Mint Opens at 08:00 AM UTC

The first stage celebrates the rebranding from Dean's List DAO to IslandDAO.

Whitelist Window: All whitelisted addresses will have an exclusive 24-hour minting period.

Public Mint: After the whitelist window, any remaining NFTs will be available on a first-come, first-served (FCFS) basis until 1,111 NFTs are minted.

## JUNE / JULY 2025 - STAGE TWO: NFT NYC & ISLANDDAO V3

Total Supply: 1,111 NFTs

The second stage kicks off during the Solana Solstice Event in NYC at the end of June and will remain open into the launch of IslandDAO v3.

## OCTOBER 2025 - STAGE THREE: ISLANDDAO V4.

Total Supply: 1,111 NFTs

The final stage of the mint will take place at the launch of IslandDAO v4 in October 2025.

# TECHNICAL ARCHITECTURE

## SOLANA, METAPLEX, METAPLEX CORE & METAPLEX CORE CANDY MACHINE

### METAPLEX

#### METAPLEX CORE & PLUGINS

Metaplex Core Standard ([Learn More](#))

Core Plugins: Autograph, Attributes, Update Delegate

#### AUTOGRAPH PLUGIN

The Autograph Plugin enables individuals to add their signatures and messages to an asset or collection. Initially, the update authority can add this plugin during minting. Subsequently, only the asset owner can add it. Once added, any user can append their autograph, which includes their address and a personalized message. The owner or an autograph delegate can remove any autograph, but the signer cannot remove their own unless they hold the owner or delegate role.

Example Use Case: A digital artist releases an NFT and adds the Autograph Plugin. Collectors can then sign the NFT with personal messages, creating a unique record of ownership and interaction.

#### ATTRIBUTE PLUGIN

The Attribute Plugin allows developers to attach key-value pairs to an asset, providing additional on-chain metadata. This is particularly useful for adding dynamic properties or traits to NFTs, which can be automatically indexed by the Digital Asset Standard (DAS).

Example Use Case: In a gaming scenario, an NFT representing a character can have attributes like "Strength" or "Agility" that can be updated as the character progresses.

## UPDATE DELEGATE PLUGIN

The Update Delegate Plugin permits the asset's update authority to delegate update permissions to another address. This delegation allows the designated address to modify the asset's metadata or other properties without transferring full ownership.

Example Use Case: A project lead can delegate update rights to a team member, enabling them to manage asset updates without granting full control over the asset.

# TOKENOMICS

The NFT mint price is set at 1.1114 \$SOL for all participants. The project has been structured to ensure complete fairness and transparency, featuring:

- i. No free mints
- ii. No team allocations
- iii. No hidden fees
- iv. Transparent and equitable mint conditions

## NFT WHITELIST DISTRIBUTION

The whitelist will be open for 24 hours. After that, it will be FFA.

Check your eligibility: <https://eligibility.islanddao.org>

### ELIGIBILITY CRITERIA

#### Dean's list NFT Gen 1

Own a Dean's List NFT Gen 1.

#### Dean's list Token Holders

Own 69,000 \$DEAN tokens or more.

#### AthensDAO Participants

Attended AthensDAO

#### .ser Domain Holder

Own one or more .ser domains

#### Dean's List Futards

Participated in Futarchy governance

#### IslandDAO Participants

Attended IslandDAO

#### Dean's List Vota

Used Vota governance

# REVENUE ALLOCATION & ROYALTIES

## NFT SALE

All funds will be gathered by this DAO Treasury: (Make New Treasury in Realms.Today for the funds gathered by the NFT Sale)

The treasury is governed by the DAOs Governance Token → \$ISLAND

\$ISLAND Contract Address:

Ds52CDgqdWbTWsua1hgT3AuSSy4FNx2Ezge1br3jQ14a

## ROYALTIES

- 50% to DAO Treasury  
(FThth1Uwkw1JJKMkKohpgiEshYKZojMpfhGHMf2rLZNR)
- 50% to Gen 1 NFT Holders Tensor -→

## USE OF FUNDS

All funds will be subject to on-chain community votes

Use of Funds:

Perks for Holders

Collection integration to DAO platforms (realms.today, gib.work, IslandDAO feedback dApp, Pubkey etc)

## TEAM & CORE MEMBERS

There is no team. *It's all the DAO.*

# ROADMAP

## EVENT ROADMAP

### **IslandDAO Hosted Events 2025:**

IslandDAO v3 & v4 (TBA)

AthensDAO v4 (TBA)

## SOLANA ECOSYSTEM EVENT PRESENCE

### **IslandDAO Hosted Events 2025:**

Solana Breakpoint 2025

Solana Crossroads 2025

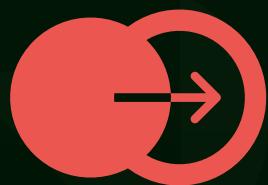

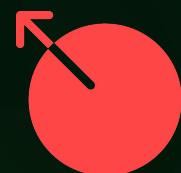

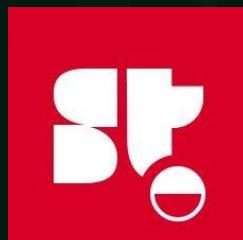

MountainDAO 2026

Network State 2025

## TECHNICAL ROADMAP

- Collection-wide AI Naming Event
- Digital Signatures Website allowing the holder to get their NFT digitally signed and displayed
- Special DAO Profile on the upcoming Realms DAO Dashboard.
- New Leaderboard Design demonstrating onchain & offchain PERKs for each event IslandDAO is hosting/participating
- Integration with the brand new Realms.Today DAO Dashboard
- Integration with the Island DAO Feedback dApp

# PARNTERS

\* All Monkes are whitelisted. As a token of appreciation to the pioneers at MonkeDAO we will extend IslandDAO invitations to all Gen2 SMB holders

# APPENDIX: LEGAL AND COMPLIANCE

## LEGAL DISCLAIMERS AND NOTICES

### No Legal, Financial, or Investment Advice

This document and any information contained herein are provided for general informational purposes only and do not constitute legal, financial, investment, or other professional advice. The contents of this whitepaper should not be interpreted as a recommendation to buy, sell, or hold any asset or to engage in any investment strategy. The NFTs referenced herein are digital collectibles with utility features determined by the IslandDAO community and do not represent financial instruments or securities. Participants should consult with their own advisors before making any decisions related to participation in IslandDAO or its associated offerings.

## SUBJECT TO CHANGE

The contents of this whitepaper, including but not limited to project goals, roadmap, technical implementations, utility, tokenomics, and governance mechanisms, are subject to ongoing development and may be modified, amended, or updated at any time by IslandDAO. Such changes may be made in response to internal decision-making processes, community governance votes, market conditions, legal or regulatory developments, or any other relevant circumstances. No aspect of this whitepaper is binding, and no guarantees are made with respect to the future performance or implementation of any aspect of the project.

## GOVERNANCE BY ISLANDDAO

All aspects of the project described in this whitepaper, including the issuance, distribution, modification, or use of NFTs and associated metadata, are governed and managed by the IslandDAO community. Decisions are made through community governance mechanisms as determined by IslandDAO and may include changes to the utility, metadata, appearance, or other elements of the NFTs. Participation in IslandDAO implies acknowledgment and acceptance of the DAO's authority in all such matters.

## INTELLECTUAL PROPERTY RIGHTS

All intellectual property related to IslandDAO, including but not limited to the names, logos, artwork, written materials, NFT designs, metadata, smart contracts, and digital assets described in this whitepaper, are the sole property of IslandDAO. No part of the intellectual property may be used, copied, reproduced, or distributed without express written permission from IslandDAO or its authorized representatives, unless such use is explicitly permitted under applicable open-source or creative licenses declared by the DAO.

## NFTS AND METADATA ARE DYNAMIC

By their nature, the NFTs issued by IslandDAO may be subject to change over time. The metadata, functionality, and associated digital assets may evolve through updates or improvements as determined by community governance. Holders of IslandDAO NFTs acknowledge that the content and characteristics of their NFTs may change based on proposals approved by the DAO, and no permanence of design, metadata, or associated benefits is guaranteed.

## NO LEGAL EFFECT

Nothing in this whitepaper shall be construed as creating a legally binding agreement, representation, warranty, or contract of any kind. This document is purely informational and should not be relied upon as a promise or guarantee of future results. The IslandDAO initiative is experimental and community-driven, and all statements herein are subject to significant uncertainty and change.
